JUDGE WEST AT BELLEVILLE.

CINCINNATI, Aug. 16.—The Ohio campaign opened to-night, Belleville in a speech by Judge West. After brief introductory remarks Judge West said:

The Cleveland Convention reaffirmed as last year, the principles of 1876. On this, we fought won. The principles it enunciates and their discussion are fresh in our minds. In the case of the National Life Insurance Company of U. S. A., however, the discussion was not so full as in the case of the Cleveland Convention. The latest success is the adoption of a resolution to remunerate the expenses of scientific experiments, in proceeding the composition of the coinage. This is a great step forward in the pursuit of vegetable oil. The man who first suggested this idea, and who is unpermitted in this department of invention.

The Detroit Regatta Suffers the Continued Disapprobation of J. Pluvius.

AQUATIC.

Detroit, Mich., Aug. 16.—The third regatta-day was evidently chopped from the same log as its predecessors,—heavy rains during the forenoon, clearing up at dinner-time; then an hour at 10° dep. in the shade, followed by squalls and showers. The discomforts and delays were enough to have dispensed almost any audience, but these Detroit spectators seem wonderfully wind-and-weather proof, and on stands, and docks, and steamboats they mustered fully 12,000 strong, and held their positions until the last stroke was pulled and the last burst sounded.

THE FIRST RACE.

First on the program, and before the National Association races came, the Junior single scullers, postponed from Tuesday to Wednesday and again from Wednesday till today. At 3 p.m., the hour named for this contest, the clear blue water had blossomed into white caps, and the sunper was forced to wait half an hour until the wind and waves abated. The entries, originally nine in number, had dwindled away gradually until but two contestants remained. The starter, Samay, of Rochester, took the lead readily, and was soon headed, Great of Troy a second, in a boat rugged high enough for Long John, rowing a plucky but hopeless stern race.

THE SECOND RACE.

The pair-scull race had had but two contestants, and the Detroit representatives were sadly overmatched against Killoran and Smith, who were last year members of Chicago's Northwestern crew, but now put under the green flag of the Eastern City, and are beyond any question, the fastest pair in America. Having a three-mile four-oared race to pull soon afterwards, the Emeralds contented themselves with two lengths' lead and then home in that position.

THE THIRD RACE.

Next came the senior single sculls. The original entry of five was reduced to four, and of these Way, who had last won the junior scullers, failed to get to the top of the course in time. The rest of the day was literally nowhere, and gave up entirely half a mile from the winner. The uper, George W. Lee, of the Triton Boat Club, Newark, N. J., a boy of 16, had given out after a few months long, and who seems likely to develop into an aquatic Burns or Tenbroeck. He traveled through the cross winds and heavy water without a scratch, and came in the length of a street ahead of O'Donnell, of New Orleans, and Tompkins, of Greenwich. He is certainly, even though he has no avocation, and all future career will be watched with interest by those who saw his splendid rowing to-day.

THE FINAL RACE.

was for the double scull, which sailed with one turn, being the first time that such a race had been included in the programme of the National Regatta. When this was called, what was to be had, quieted the crowd, who, however, were satisfied with the fast rate of the race. The condition of things was, literally, a fortnight. At the end of this time, we read the morning papers that his health had suffered, getting out of bed, and when he proposed to go up, found to his utter surprise that his limbs were powerless. His wife and his physician, and lawyer, Dr. Radcliff, at first, had him as well as his feet, were affected by the peculiar paralysis, but the numbness gradually passed away from his hands; his true condition was then ascertained, and a similar fit of the malady struck his mind at once, when the physical difficulty declared itself, became active. This was almost as sudden as the raising of a storm or a tempest, and it was impossible to ascertain whether he had any knowledge how many to the minute, and passed crew after crew, until the two boats had come abreast. The four remaining boats had as close and exciting a race as ever.

AS WAS EVER SEEN.

On an unusually even start, the Wolverhounds soon took the lead, Emerald, Excelsior, and Sho-wa-canettes all about level, and the Mutuals were far behind. At the turn the Wolverhounds were first, Emerald second, Eureka third, Sho-wa-canette fourth, and Excelsior fifth. When all were within sight, the mutuals made a dash, and the Monroe boys put one of their historical spouts, pulling no one know how many to the minute, and passed crew after crew, until the two boats had come abreast. The four remaining boats had as close and exciting a race as ever.

THE BASE-BALL.

TODAY'S GAME.

The Chicago and St. Louis Clubs will play this afternoon on the Twenty-third street grounds, the game being the ninth of the series. The Chicagoans have won five of the eight already played, and would like to make sure of the series by winning to-day and to-morrow.

CHICAGO DEFEATED AT JANESVILLE.

JANESVILLE, Wis., Aug. 16.—The Chicagoans and the Mutuals played a very good game, but the Mutuals won, 5 to 0 in favor of the Mutuals. The Mutuals made sixteen base-hits of Bradley, and also made three fine double plays during the game. The Chicagoans made six base-hits.

WINONA, MINN.

Special Dispatch to The Tribune.

THE CHANGE
WHICH HAS COME O'ER THE SPIRIT OF EUROPE'S
DREAMS.
[By Cable to The Chicago Tribune.]

London Office of The Chicago Tribune,
No. 6 PALGRAVE PLACE, STRAND, Aug. 17—
There is nothing so marked just
now as the change in the attitude of England
and Austria towards the aggressive power
in the present war. Only three weeks ago the
Governments of Europe were still swayed by a belief in the victorious march of the
Russians. The Grand Duke was firmly es-
tablished south of the Danube; Prince
Tschirski and his secretaries had been in-
stalled at Timrova; Gen. Gourko, with his
forces multiplied five-fold by public report,
was across the Balkans. The effect of these
events was seen in the counsels of the other
Powers. It was then that the British Gov-
ernment hastened to reinforce the garrison of
Malta, intending to ultimately occupy
Gallipoli.

A MORE IMPORTANT INCIDENT

was the decision of the Austro-Hungarian
Government. On the 31st of July a Ministerial
meeting was held, and it was determined
to prepare for the mobilization of part of
the Austrian army. The passage of the
Danube and Balkans had started the Aus-
trians from their complacency. What
seemed distant and contingent was
now close before them, and it
was necessary to face it. But the very
day of this Ministerial Council the Rus-
sians sustained the first severe defeat
north of the Balkans. Immediately the
English Government relaxed the speed
with which war preparations were being
carried on, while Austria made haste to
ensure the working hours. To-morrow the masters will give notice
to terminate all contracts.

MEXICO.

INDIA.
NEW ORLEANS, La., Aug. 14.—The Galveston
(Tex.) News speaks of a fight in Mexico
between the Kickapoos and Lipan tribes of Indians,
in which seventeen Lipans were killed.

MEXICAN TROOPS

are concentrating at Camargo, opposite Ring-
gold Barracks.

CATTLE-THEFTS.

A Fort Clark special says Mexican cattle-
thieves drove 150 head of cattle across the Rio
Grande on the 14th.

FRANCE.

OLIVIER.

PARIS, Aug. 15.—Emile Olivier has solicited
Government parsons as a candidate in the
Department of War, but has been refused. Le-
merier, formerly Bonapartist Prefect, runs
against him.

GERMANY.

THE COAL TRADE.

LONDON, Aug. 15.—The German beetole, de-
spite energetic attempts to stamp it out, has
spread over twenty-five acres at Langenreichen-
bach near Torgau, Germany.

SWITZERLAND.

GOOD CREDIT.

LONDON, Aug. 15.—The Swiss Federal loan of
\$100,000 francs has probably been subscribed
six times over.

RELIGIOUS.

CHAUTAUQUA.

FAIRPORT, N. Y., Aug. 18.—Joseph Cook in
spending to-day, in answer to a question gave his
opinion of Chautauqua: "It is an achievement,
a promise, great as both. The central thought
in this great summer university is to cause the
student of the Bible to study natural science,
and the student of natural sciences to study the
Bible."

THE SITUATION.

SOME HOPE FOR THE RUSSIAN.
[By Cable to The Chicago Tribune.]

London Office of The Chicago Tribune,
No. 6 PALGRAVE PLACE, STRAND, Aug. 17—
In London we hear nothing but rumors
of the southward passage of the Bal-
kans by Suleiman Pasha. It is said he is
descending upon Bulgaria by Elena, but there
remains the fact that Gen. Gourko has not
been dislodged from Shkops pass. The
latest report is that Osman Pasha, leaving
his main body at Pleven, has advanced with
considerable forces upon Timrova, but it is
very doubtful whether Osman Pasha would,
at such a time as this, divide his forces.
The correspondent of the *Daily News*, writing
from Sistova, discusses

STUDY OF THE TWO ARMIES

now confronting each other in Bulgaria.
The great desire of the Russians is to
serve, for a pitched battle, in which their
superior organization would give them ad-
vantages which their enemy is determined to
deny them. Of course the Russians are
waiting reinforcements, but when the latter
have arrived, if the Turks are attacked in
their positions, the Plevna contest will be
between soldiers and soldiers plus earthworks.

The correspondent thinks

THESE CAN BE LITTLE DOUBT,

that the seven divisions now on their way
to reinforce the Russian armies arrive, that
the Grand Duke Nicholas will have men
enough at his disposal to clear Bulgaria
north of the Balkans of the Turkish
armies in the field before winter.

Before the time comes for
going into winter quarters, Rustchuk will
almost certainly have fallen, probably Silis-
tria and Widden also, and there will remain
only Shmula in Turkish occupation north of
the Balkans.

AT THE SAME TIME

he perceives that the maintenance of an army
in Turkey during the winter will involve a
strain upon Russian resources more serious
than many imagine. There must be a long
period of unbroken weather, when com-
munications all over the country from
the Russian base up to the army will
be wholly impracticable. If the winter is an
open one, like the last, the Danube will
be wholly frozen over so as to admit of
traffic on the ice, but the floating ice will
necessitate the removal of bridges.

THE WAR.

IN ASIA.

ERZURUM, Aug. 16.—The reports that the
Russians are advancing from Ardahan on Olti
are unfounded. There are only six battalions,
two batteries, and one regiment of cavalry at
Ardahan. Four battalions detached from that

division are now encamped at Galm-

GRENADIER VOLUNTEERS.

ALEXANDRA, Egypt, Aug. 16.—The Greek
volunteer movement continues. A further
detachment of 120 started yesterday for Greece.
The authorities have retained sixty volunteers
intending to leave, on the ground of their being
subjects of the Porte.

DRAFT.

CONSTANTINOPLE, Aug. 16.—An Imperial de-

crees calls to arms all belligerent exponents.
Those who have already served but not yet
attained their 40th year will be divided into na-
tional guards, who may ultimately be sent to
the seat of war, and national guards for prov-
ection and internal security.

SERVIA.

BELGRADE, Aug. 16.—The finance law orders
the Serbian loan of 1871 to be fully paid up.
The full amount is 12,000,000 francs. Only 272,
500 francs have been paid. The dates of the 27th
of October and the 18th of January have been
fixed for compensation, falling in the Balance
Districts, which have suffered on account
of the war are exempted.

GOURKO.

Gen. Gourko has gone to Petersburg to
take command of the guards going to the front.

RUSTCHUK.

The siege of Rustchuk is virtually raised.

LONDON, Aug. 16.—The Prince of Montene-
gro has been obliged to raise the siege of Nic-
sic to march against the Turkish troops who
are endeavoring to enter Montenegro.

THE TURKISH RETREAT.

London, Aug. 16.—The Russians have eva-
uated Elena and Behren, and nearly all
the country up to Tirkovo. Suleiman Pasha's
vanguard is close to Gabrovo. He has re-
ceived heavy reinforcements from Constanti-
nople.

THE WAR.

KRUKOV, Aug. 16.—The canal which the
Government has constructed to overcome the
obstruction to navigation caused by the Des
Moines Rapids in the Mississippi at this point
will be formally opened with suitable cere-
monies on Wednesday of next week, Aug. 22. The
canal extends along the lower shore from
Keokuk to Nashville, a distance of some 12 miles,
and is 300 feet wide at the embankment
and 200 feet wide in excavation; minimum
depth of water, five feet; maximum depth, eight
feet, which is sufficient to float the largest steamers
that pay the waters of the Upper Mississippi.
The embankment enclosing the canal is ten feet
in width on top, with a rip-rap covering two feet
thick and carried two feet above extreme high-
water mark. The fall in the entire length
which the canal extends is 1,375 feet.

THE LOCKS.

There are two locks and one guard-lock,
each 330 feet long and eighteen feet wide on top,
each 100 feet built of solid stone and
promised by experts who have examined
them to be very substantial, and highly
creditable specimens of engineering skill.
Sufficient capacity to control the sur-
plus water carried into the canal by the nu-
merous streams emptying therein during their
frequent floods, are built around the locks.
These were not included in the original esti-
mate, and have materially increased the cost of
the work.
